TO WHOM IT MAY CONCERN

It is with great pleasure and sincerity that I have the opportunity to recommend Spark International as a supplier to Plant Hire and Mechanical Services, PWD within the Ministry of Communications, Works and Labour in Montserrat.

For over twelve (12) plus years, Spark International has provided high quality services in the supplying of parts/spares for the fleet of vehicles owned by the Government of Montserrat and maintained by Plant Hire and Mechanical Services, PWD to include bulldozers, wheel loaders, graders, backhoe, agricultural tractors, towing unit, trailers, lorries, school buses, generators, vehicle lifts, small plants and vehicles. They have also supplied tires, coolants and lubricants to maintain the department's operations plus the uniforms and safety boots worn by the employees. They have supplied equipment (Freightliner Septic Truck) and provide support to assist in fault diagnosis and repair works conducted on various equipment. It is my pleasure to add that they provide excellent trainers to further enhance and develop our performances in the services that we provide; to include, but not limited to, Heavy Equipment Operator, Welding and Fabrication and Freightliner Familiarization and Literature Training.

Spark International continues to provide excellent, effective and efficient supply and support services to our department; for this reason and quality in business they were recommended to other departments on Montserrat such as Disaster Management Coordination Agency/Emergency Department (DMCA), Royal Montserrat Police Force (RMPPF) and Ministry of Agriculture, Trade, Lands, Housing and the Environment (MATLHE) just to name a few.

In conclusion, our ministry has developed good business relationships with management; Mr. Dean "Sparky" Brennan, team members such as Eli Gonzalez, Carlos Orges and Angel Thomas to name a few which in return led to our effective performance in the services we provide on Montserrat to the public and private sectors.

Sincerely,

.....  
Daren Greer  
Plant Superintendant
